Become a samurai in SAMURAI II: VENGEANCE Mod. Engage in dangerous battles, with the task of overcoming challenges to win. This is the 2nd version in the SAMURAI game series by developer MADFINGER Games. The game has a lot of dramatic action, using swords in hand to defeat opponents. This is the perfect combination of adventure and action elements. With action scenes that go extremely attractive. SAMURAI II: VENGEANCE Mod has a very tragic plot. Revolving around the character Daisuke, during a mission, his wife was murdered. When he returned to his home, a cruel scene appeared before his eyes. Hatred for those who harmed his wife, Daisuke took up his sword and began his journey of revenge. Join the game, you will play the role of Samurai Daisuke with the task of destroying all enemies. Enter the brutal wars, immersed in blood and tears. The character's scream creates a feeling of anger, slashing enemies mercilessly. Participating in the revenge war, you will have to advance into the enemy's barracks to destroy the person behind. Show your strength, by breaking through each layer of protection in turn. Using the sword in your hand, take down all enemies that stand in your way. The battle of SAMURAI II: VENGEANCE Mod is extremely fierce, you can be defeated at any time. Your enemies are samurai, possessing strong fighting ability. In addition to focusing on the attack, you also have to dodge the enemy's sword strikes. If you are unlucky enough to be slashed, you will lose a certain amount of blood, even lose your life. The difficulty will increase each time you advance into the enemy base. At the same time, the samurai will appear more, possessing stronger skills. During the battle, traps and obstacles appear everywhere. They are very carefully arranged by the enemy, with the purpose of causing the intruders to lose their lives. Therefore, if you are not careful or lose focus, you can lose your life before fighting the enemy. Although the pitfalls in SAMURAI II: VENGEANCE Mod look quite simple. But it has the potential to cause you to lose a huge amount of blood. You can even lose your life when you fall into too many traps. Even if you don't lose your life, it will definitely affect your battle. The background of SAMURAI II: VENGEANCE Mod has a classic style. The battles are reproduced boldly in the culture of ancient Japan. What's more, the game has a lot of different maps for you to experience. At first, your battle takes place in the poor countryside. But after a while of fighting, you can move to many different lands. From the craft village, the flying fortress to the dead land. Each map is inspired by ancient contexts, bold Japanese culture. The gameplay of SAMURAI II: VENGEANCE Mod is quite simple. Your task is to control Samurai Daisuke to defeat all enemies to win. Daisuke possesses 3 combat skills, shown on the right side of the screen. If you want to use a skill, you just need to touch it. Immediately, the character will perform skills to attack the enemy. Likewise, the right side of the screen shows the navigation key. You just need to touch and swipe on the screen to control the character. In general, the control system of the game is not too difficult. It is similar to other scene fighting games. However, you need to have flexible control, combine skills and move to attack the enemy easily. During the battle, SAMURAI II: VENGEANCE Mod will help you slow down beautiful attacks. Allows you to clearly see the blade swinging and slashing at the enemy. Show off the power of a samurai with stunning skills. However, if you want to create slow motion, you need to dodge the enemy's sword. At the same time, take advantage of the opportunity, attack the enemy before they attack. Especially can create impressive combos, combine moves, and use skills flexibly. At that time, you will be admiring the eye-catching slow-motion combos. SAMURAI II: VENGEANCE Mod is an action game, with the style of ancient samurai culture. Takes you to engage in fascinating revenge wars. Show strength, by using powerful skills. At the same time, discover a lot of forgotten lands. The screams of the characters when swinging the sword, the sound of the swords cutting each other are shown very realistically. If you love the action genre, join the bloody battles in SAMURAI II: Vengeance. From the extremely eye-catching hack-and-slash action gameplay to the sharp 3D manga graphics, it will definitely bring you an extremely realistic experience. Download the MOD version of Samurai II: Vengeance for free at MODDED-1, to experience the extremely eye-catching hack and slash game.Note: Play games like Takashi Ninja Warrior or Ronin: The Last Samurai.Introduce about SAMURAI II: VengeanceSAMURAI II: Vengeance - The game sequel to SAMURAI IIf you have ever played SAMURAI I from the publisher MADFINGER Games, you must be looking forward to its innovation. However, instead of updating new content, MADFINGER released another version of the game called SAMURAI II: Vengeance.SAMURAI II: Vengeance is the sequel to SAMURAI I, so gamers can continue their unfinished journey in the previous installment. In addition, this new game has significantly improved graphics, sound, and violence in the game. It seems to be more vibrant with fast-paced and extremely brutal acts. So do you like this change? Let us know what you think.Endless HuntIn SAMURAI II: Vengeance, the game sent Daisuke new missions. He will have to find and destroy all his enemies across the war-torn countryside. From the seafaring shop to the legendary Isle of the Dead, he hunts down Orochi, his archenemy. And wherever he stopped, there would be people who were put to death by his fatal slashes. Just like that, Daisuke would never stop until this hunt was over. But I can't tell how far he can go. Because you will decide that. You will be Daisuke's companion along the way.Fight like a real samuraiDaisuke is alone in each match, but his enemies are many. Therefore, to win, players need to have factors such as agility, acumen, skill, and experience. Agility will help them dodge enemy attacks or launch moves at a fast speed so that the opponent does not have time to react.Meanwhile, acumen will tell them when they should attack, and when they should defend. In addition, skill and experience are two factors that determine the reputation of a samurai. How he unleashes his moves, mixes skills, and fights according to a tactical plan will be important. That's what every player needs to learn and practice every day while playing SAMURAI II: Vengeance.TrapYour enemies are not only the people of Orochi but also the deadly traps set up. They could be giant knives dangling and swinging, or spikes embedded deep in the roads. All of them ready to kill someone with a single collision. And you have to be careful with that every now and then.Change in controlIn the previous part, players only needed to swipe their fingers on the screen to move and attack. However in SAMURAI II: Vengeance, this operation changed to separate function buttons. Specifically, players will touch the multi-dimensional key on the left side of the screen to move the character. Meanwhile, they must simultaneously touch the function buttons on the right side of the screen to help the character perform attack moves. Each button will correspond to a certain skill, and players need to combine them appropriately.Unlock and upgradeWhile new combos and skills are randomly unlocked in SAMURAI I, in this new version, players can buy them with coins they own. Money is quite important in this game, as they are very useful to buy weapons, skills, and a character's health. In addition, players also need money to upgrade the above. Especially the character's health, it is a stat that can be upgraded to destruction, when your character possesses maximum strength.More outstanding graphicsCompared to the first version, SAMURAI II: Vengeance has had a significant upgrade in terms of graphics and sound. The action scenes are described very vividly and realistically in high-end manga 3D format. In addition, the character is quite unique both in appearance and skill set. Each character exudes the classic beauty of wartime samurai, imbued with the culture of feudal Japan. The unique combat effects or slow-motion scenes partly make the action scenes in the game more perfect. It makes gamers feel like they are immersed in a real-life-and-death battle.How to install Samurai II: VengeanceStep 1: Download the special version (MOD Money) of Samurai II: Vengeance exclusively developed by MODDED-1.Step 2: Unlock settings on Android device.Note: Allow "Samurai II: Vengeance" to access your phone.Step 3: Tap Install.Step 4: Follow the on-screen instructions to complete the installation.Download SAMURAI II: Vengeance MOD APK for AndroidThe return of the action game series SAMURAI II: Vengeance has been the desire of many fans. Moreover, it also marks a significant improvement of this game both in terms of gameplay, controls, sound, and more. The game with seamless content will somewhat immerse players in the world of endless action-adventure. At the same time, the eye-catching killing phase also makes gamers excited for hours of experience. However, there is a note for our players. Violent and gore images will constantly appear in this game, and be ready to face it. Or you should consider before playing.MOD Features: Samurai II: Vengeance (MOD, Unlimited money) - In this game you will find a unique era of samurai, in which you will play a brave warrior. Your story will begin with the fact that your lover is badly hurt and she will die. You, unable to contain your anger, go in search of a murderer and at the same time destroying all the enemies on your way. You will be given several super strokes that will help break down the enemy in one stroke. The further you go the more you need to improve your skills.
